Alone Soon at Rate Men Are Being Slain

Russian and German claims of casualties they have inflicted on each other are so high that they could obliterate each other's armies within three months at the same rate, leaving only a few generals to shoot at each other.

Russians say they are killing and wounding 60,000 Germans a day-1,000,000 thus far in sixteen days of war. This is more 2,500,000 German troops estimated engaged, a casualty per centage for the whole force far higher than military men say is necessary to destroy morale, and a total of 300,000 more than both the French and Germans lost in the nine-month battle of

The Germans have announced capture of 300,000 Russian prisoners, and stated that casualties inflicted on the Russians were much heavier than that. Russians are estimated to have not more than 3,000,000 soldiers on their western front.

President Orders Ships To Take Needed Steps To Keep Atlantic Safe

Chief Executive Directs Atlantic Fleet To "Free the Atlantic of All Hostile Activity or Threat Thereof"; Action Defies Germany's Designation of Area as a War Zone

WASHINGTON, July 7 (AP) - United States naval forces landed in Iceland today to relieve the British defenders of that island, and President Roosevelt issued ing orders to the Atlantic fleet to "insure the safety

Whether this order, applying to vast stretches Atlantic, meant that the navy would go into action against any German submarine, surface raider or warplane found near the line of communications was not stated, and all officials declined to elaborate on the president's wording. SENDS SPECIAL MESSAGE

Mr. Roosevelt, in a special message to Congress di closing that the United States was occupying Iceland, said the United States "cannot permit the occupation by Germany of strategic outposts in the Atlantic to be used as air or naval bases for eventual attack against the Western

He also said it was "imperative that the approaches between the Americas and those strategic outposts, the safety of which this country regards as essential to its national security, and which it must therefore defend, shall remain open and free from all hostile activity and threat

The president mentioned specifically Iceland, and the American bases in British Guiana and Trinidad as among the strategic outposts. He did not name any other, but it was recalled that in a speech May 27 he said the Nazis were a threat to Dakar, West Africa, and to the Azores

VAST PROGRAM FOR NAVY

Whether or not he had the communications to all those places in mind in issuing his order to the navy, it was plain that, at the very last, the American vessels and patrol planes had been given a vast policing operation.
